Subscribers!**

Frequently Asked Questions

Q. How does the training portal subscription work?

A. Once you decide on the registration approach you will take, Barnett will provide a spreadsheet containing all available courses. Select the courses you would like included in your subscription and return the spreadsheet to Barnett. Upon receipt of your course selections, you will receive your login credentials to Barnett's Learning Management System (LMS) within three business days.

Q. How is this different from ordering individual course archives?

A. The subscription option is designed to provide you with more course offerings at a lower per participant cost.

Q. How long does the subscription last?

A. Training portal subscriptions last for one year. Subscriptions can be renewed annually at a rate of 20% off the original fee paid. Upon each annual subscription, training courses selected may be modified.

Q. When ordering for a team, can I assign different courses to different learners?

A. After choosing the overall courses to be included for teams, particular courses within that selection can be assigned/not assigned to particular learners.

Q. Can an individual track their own training?

A. Yes. Individual course completion status and certificate printing is available for each learner.

Q. How do I receive my team reports?

A. Team reports are generated and sent out on a bi-weekly basis to a designated point person.

Q. Are Barnett certificates of completion available for completed courses?

A. Yes. Once each course is completed, certificates are available within the Learning Management System (LMS).

Q. How much does a subscription cost and how do I place my order?

A. Subscriptions are available for individual users. Team discounts are available for even more value – the more users you register, the more you save. For more details, pricing and to place an order, contact Barnett as follows:
